Role Options

User Roles Assignments

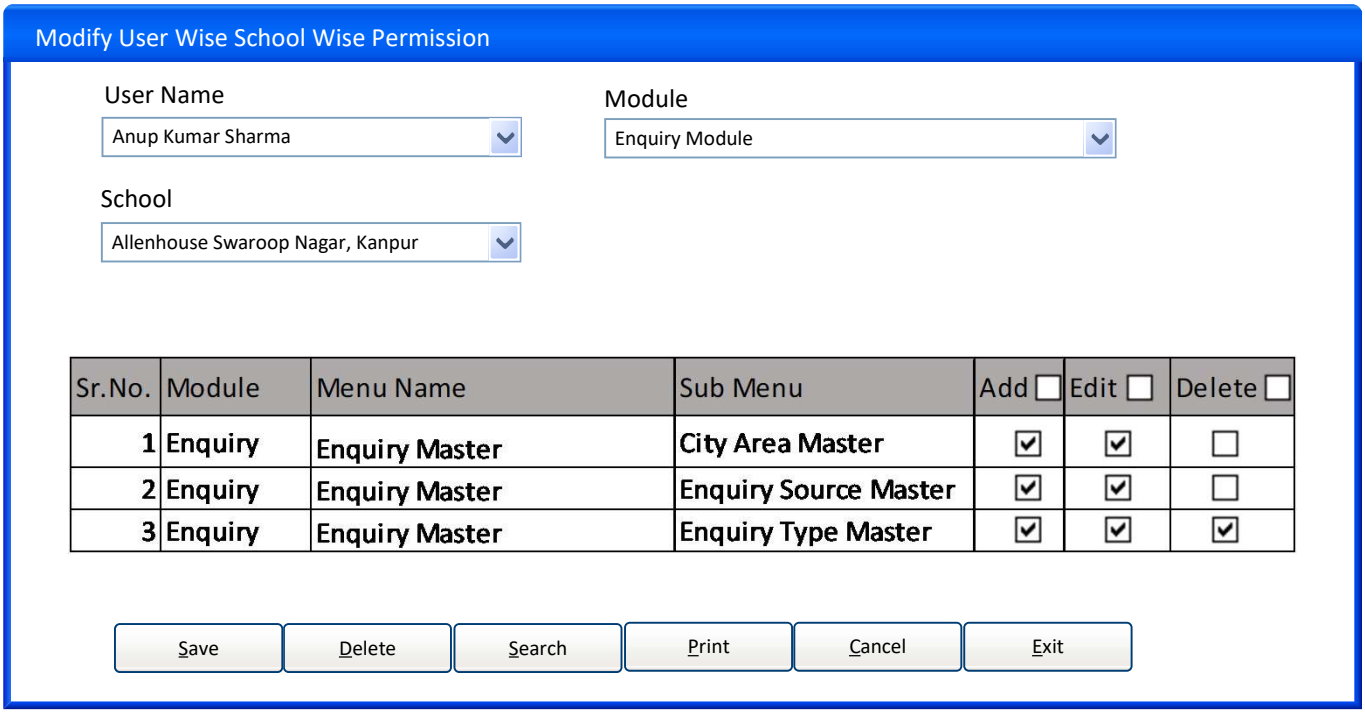

User Permission

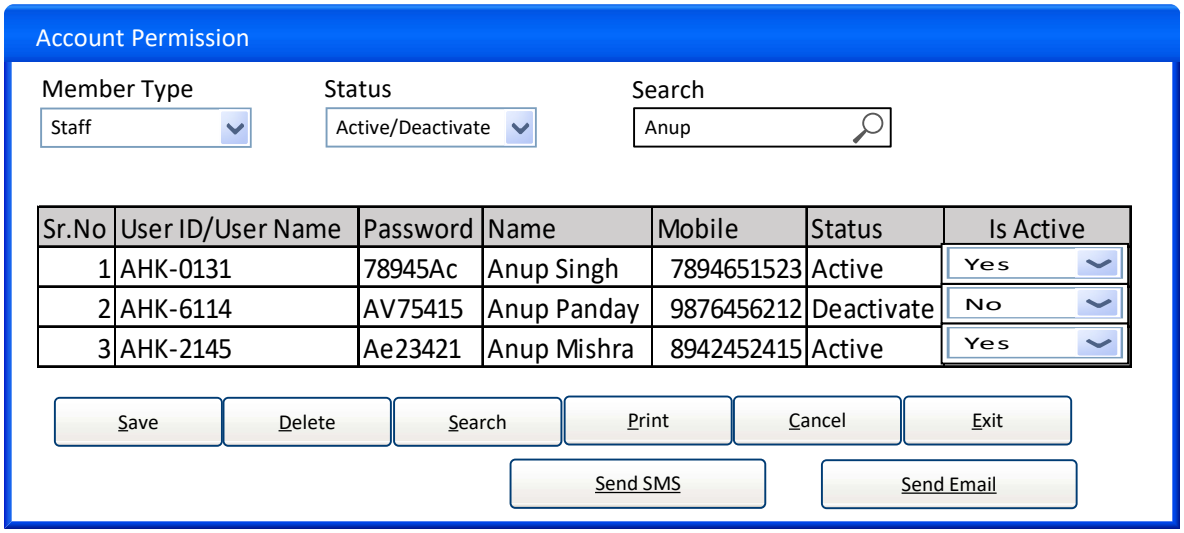

Description :

1) When we select any page from grid then by default we set page all permissions to the user like Save, Edit, Delete or Print Button.
2)If Select Checkbox is unchecked that Means User Has No Permission to access that page.
3) Grid Data will be open as per user role assigned.

Modify User Wise School Wise Permission

Account Permission

Description :

1) If “Is Active” is “No” then user can’t login in application. So using this from we can control user login.

Back Date Entry Permission
